LUCA COMAI
Professor, Department of Plant Biology, UC Davis
“HI-Edit: Causes and Consequences of Plant Genome Instability”
Monday, January 14, 2019

JAMES THOMSON
Research Geneticist, Plant Gene Expression Center, USDA
“Recombinase Technology and Its Applications”
Thursday, January 24, 2019 – 12:10 p.m., Life Sciences 1022  |  Host: Mily Ron, mron@ucdavis.edu
Date and time change due to Monday holiday.

IMTIYAZ KHANDEY
Postdoctoral Researcher, Sundaresan Lab, Department of Plant Biology, UC Davis
“Embryo Development and Synthetic Apomixis in Rice”
Monday, January 28, 2019  |  Host: Luca Comai, lcomai@ucdavis.edu

TIM KELLIHER
Principal Scientist, Reproduction Biology, Syngenta
“Disrupting Crop Breeding via Simultaneous Haploid Induction and Genome Editing”
Monday, February 4, 2019  |  Host: Anne Britt, abbritt@ucdavis.edu

BARBARA BAKER
Adjunct Professor, Plant Gene Expression Center, USDA
“Regulation of Plant Innate Immunity by RNA Silencing”
Monday, February 11, 2019  |  Host: Luca Comai, lcomai@ucdavis.edu

ANDREW GROOVER
Adjunct Professor, Department of Plant Biology, UC Davis
“Embracing the Complexity of Nature: Genomic Approaches for Understanding the Development and Evolution of Forest Trees”
Thursday, February 21, 2019 – 12:10 p.m., Life Sciences 1022  |  Host: Luca Comai, lcomai@ucdavis.edu
Date and time change due to Monday holiday.

DAVID ZILBERMAN
Professor, Department of Agricultural & Resource Economics, UC Berkeley
“The Social Cost of GMO Regulations”
Monday, February 25, 2019  |  Host: Luca Comai, lcomai@ucdavis.edu

PAUL HARDIN
Distinguished Professor, Department of Biology, Texas A&M University
“Circadian Clock in Fly” [Special Topic]
Monday, March 4, 2019  |  Host: Joanna Chiu, jcchiu@ucdavis.edu

BRIAN DILKES
Associate Professor, Department of Biochemistry, Purdue University
“Alkylations I Have Known and Loved: Functional Annotation of Unknowns via Genetic Interaction”
Monday, March 11, 2019  |  Host: Isabelle Henry, imhenry@ucdavis.edu
